JNCC Report No. 293
Checklist of mammals
listed in the CITES appendices
and in EC Regulation 338/97

JNCC REPORT

Digitized by the Internet Archive
in 2010 with funding from
UNEP-WCMC, Cambridge

JNCC Report No. 293
**Checklist of mammals
listed in the CITES appendices
and in EC Regulation 338/97**

**5th edition
2001**

compiled by
UNEP-WCMC

The Joint Nature Conservation Committee is the body constituted by the Environmental Protection Act 1990 to be responsible for research and advice on nature conservation at both UK and international levels. It is a committee of the Countryside Council for Wales, English Nature and Scottish Natural Heritage, together with independent members and representatives from the Countryside Commission and Northern Ireland. It is supported by specialist staff.

Prepared under contract from the Joint Nature Conservation Committee by UNEP-WCMC. The UNEP World Conservation Monitoring Centre was established in 2000 as the world biodiversity information and assessment centre of the United Nations Environment Programme. The roots of the organisation go back to 1979, when it was founded as the IUCN Conservation Monitoring Centre. In 1988 the World Conservation Monitoring Centre was created jointly by IUCN, WWF International and UNEP. The financial support and guidance of these organisations in the Centre's formative years is gratefully acknowledged.

The designations of geographical entities in this report, and the presentation of the material, do not imply the expression of any opinion whatsoever on the part of JNCC or WCMC concerning the legal status of any country, territory, or area, or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Acknowledgements

This checklist was compiled by UNEP-WCMC under contract F90-01-369 from the Joint Nature Conservation Committee.

The volume builds on earlier editions, and the numerous contributors to those editions are acknowledged. UNEP-WCMC staff involved in the production of this volume include Tim Inskipp, Harriet Gillett, Phillip Fox, Jodie Humphreys, Neil Cox, Brian Groombridge and Paul Birrell. The project was supervised by Gerardo Fragoso.

Vin Fleming and Alison Littlewood of the JNCC CITES Unit are thanked for providing advice and guidance throughout.

Introduction

In April 1991, the Nature Conservancy Council for England (English Nature), Countryside Council for Wales and Scottish Natural Heritage acting together through the Joint Nature Conservation Committee were appointed by the Secretary of State for the Environment as the United Kingdom's Scientific Authority for Animals under the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES). CITES regulates international trade in wild animals and plants and in products derived from them, to help to ensure their conservation on a global scale.

The purpose of this publication is to provide a list of the species and subspecies of mammal included in the CITES Appendices, together with their conservation status category in the *2000 IUCN Red List of Threatened Animals* and the appropriate Annex in EC Regulation 338/97.

This document incorporates additions and amendments to the CITES appendices up to and including those made at the 11th Conference of the Parties in Kenya in April 2000 (effective from 19 July 2000).

For background material on the rationale of the IUCN threat

categories, readers are referred to IUCN (2000); for background on the workings of CITES, recommended works are Favre (1989) and Wijnstekers (1992). For information by country on the diversity and status of mammals and other taxonomic groups, and for a general review of biodiversity, readers are referred to WCMC (1992) and WCMC (1994).

In a publication of this nature, it is inevitable that users will discover entries that need correcting or updating. The publishers and UNEP-WCMC would be grateful to receive details of those entries so that the necessary changes can be made in the database from which this document is produced.

The database is continually updated and the downloaded version of this document may contain more recent information than the original printed publication.

Explanatory notes

Each species is typically represented by a block of text; including scientific name (with alternatives), Common names in the three official CITES languages (where available), geographic range, CITES Appendix, EC Regulation 338/97 Annex, and Red List category. Where a species has component populations or formal subspecies which are treated differently by CITES, the species entry is subdivided appropriately.

Scientific names

Nomenclature of mammals follows Wilson and Reeder (1993), except where the CITES Appendices differ (as noted below).

The taxonomic scope and sequence of orders in this checklist follow the system adopted in the Appendices to CITES. The Appendices are based on the classification of mammals proposed by Simpson (1945).

The sequence and taxonomic scope of orders and families also follows the Appendices to CITES. The Appendices differ from Simpson (1945) at ordinal and familial level as given below:

The order Marsupialia is split into three orders: Dasyuromorphia, Peramelomorpha and Diprotodontia.

The following families have been separated:

Dasyuromorphia:

Thylacinidae from Dasyuridae

Diprotodontia:

Burramyidae from Phalangeridae

Potoroidae from Macropodidae

Primates:

Cheirogaleidae and Megaladapidae from Lemuridae

Galagonidae from Loridae

Hylobatidae from Pongidae

Cetacea:

Neobalaenidae from Balaenidae

Carnivora:

Herpestidae from Viverridae

Artiodactyla from Cervidae

The following orders/families have been renamed:

Diprotodontia:

Phascolomidae now Vombatidae

Cetacea:

Rhachianectidae now

Eschrichtidae

The following families/genera have been included within another family:

Primates:

Callimico in Callitrichidae not

Cebidae

Pongidae in Hominidae

Carnivora:

Ailuropoda and *Ailurus* in Ursidae not Procyonidae

Xenarthra:

Choleopus in Megalonychidae now Bradypodidae

The nomenclature of genera and species follows Wilson and Reeder (1993), except in the following instances:

Equus africanus is recognised as distinct from *E. asinus*

Equus przewalskii is recognised as distinct from *E. caballus*

Bos frontalis is recognised as distinct from *B. gaurus*

Bos grunniens is recognised as distinct from *B. mutus*

Bubalus bubalis is recognised as distinct from *B. arnee*

Ovis ophion is included as *O. orientalis ophion* rather than *O. aries ophion*.

These differences are included as synonyms in the list, and alternative names used in Honacki *et al.* (1982) and Corbet and Hill (1991) are also included as synonyms.

Common names

Common names have been provided in English, French and Spanish where available.

The English common names used are taken from Wilson and Cole (2000), Corbet and Hill (1991), from the *IUCN Red Data Book* series and from a number of standard reference works for the mammals of particular regions. Secondary English common names have been included wherever this was considered useful, including non-English names commonly used by English speakers. For the Cetacea, the common names used in Watson (1981), have also been included. Spanish and French names have been taken from the CITES Identification Manual Series and other sources.

Other information

The three columns headed CITES, EC Reg. and RL list the following information for each taxon.

CITES

I, II or III in this column refers to the appendix in which the taxon is listed under the Convention on International Trade in Endangered Species of Wild Fauna and Flora. NC = non-CITES

The two-letter abbreviations following Appendix III entries denote the countries whose governments have placed the taxon in this appendix, as follows:

BW	Botswana
CA	Canada
CR	Costa Rica
GH	Ghana
GT	Guatemala
HN	Honduras
IN	India
NP	Nepal
TN	Tunisia
UY	Uruguay

EC Reg.

The letters in this column refer to the Annex of EC Regulation 338/97 in which the taxon is listed. NR= non Regulation

RL

Threat categories follow those given in the *2000 IUCN Red List* and are as follows:

EX	Extinct
EW	Extinct in the Wild
CR	Critically Endangered
EN	Endangered
VU	Vulnerable
LR	Lower Risk
LR/cd	Lower Risk/Conservation dependent
LR/nt	Lower Risk/Near threatened
LR/lc	Lower Risk/Least concern
DD	Data Deficient
NE	Not Evaluated

References

The numbers in the right-hand column refer to entries in the reference list at the end of this document. Many of these are general works relevant to more than one geographical range or concerned with particular groups of species. Single country faunas and more specific references have generally been inserted in brackets after the appropriate country in the listings for geographical range.

Geographical Range

The geographical range of each taxon is generally given in terms of political units arranged alphabetically. However, Biological Recording Units (BRUs) have also been included as ranges, together with some aquatic regions, when better distribution data is available.

Place-names and names of countries follow the *Times Atlas* (1990) and United Nations (1993).

The Biological Recording Units are those of Hollis & Brummitt (1992).

It should be noted that, when a species is listed as occurring within a given area, it may not occur throughout that area, and may be confined to only one or a few localities. This is particularly true for migratory species.

Without surveying the range of each taxon in the field, it is necessary to rely on published records. Most taxonomic works give the range of a taxon in terms of broad geographical areas, rather than of political units. While some countries have a relatively well-known and well-reported mammalian fauna, some others do not. These factors may occasionally have resulted in some of the geographical ranges given here being incomplete or inaccurate, although every effort has been made to prevent this.

For Cetacea, geographical ranges are first expressed in terms of oceans, seas, and rivers where the taxon is known to occur or to have occurred. Published sources may not distinguish live and dead cetacean records, but all records have been included. Most cetaceans are widespread but coasts of some countries within their overall range may be avoided for physical, chemical or ecological reasons. Only confirmed sightings are included and taxa may occur in political units other than those named within their overall range.

A question mark '?' preceding a geographical range has been used to indicate that there is some uncertainty in the status of the species in that range.

A geographical range where the species is known to be extinct is denoted by 'ex'

'int' denotes a range state where the species has been introduced. 're-int' denotes a range state where the species has been re-introduced.

In all cases, the inclusion of a question mark indicates uncertainty in the described status.

Dependent territories

In the text, parent countries of island groups or dependent territories are omitted. These are listed below:

American Samoa, USA	Jersey, United Kingdom
Anguilla, United Kingdom	Johnston Atoll, USA
Aruba, Netherlands	Macao, Portugal
Ascension Island, United Kingdom	Macquarie Island, Australia
Azores, Portugal	Madeira, Portugal
Bermuda, United Kingdom	Marshall Islands, USA
Bouvet Island, Norway	Martinique, France
British Antarctic Territory, United Kingdom	Mayotte, France
British Indian Ocean Territory, United Kingdom	Montserrat, United Kingdom
British Virgin Islands, United Kingdom	Netherlands Antilles, Netherlands
Canary Islands, Spain	New Caledonia, France
Canton and Enderbury Islands, Kiribati	Niue, New Zealand
Cayman Islands, United Kingdom	Norfolk Island, Australia
Channel Islands, United Kingdom	Northern Marianas, USA
Christmas Island, Australia	Palau, USA
Cocos (Keeling) Islands, Australia	Panama Canal Zone, USA
Cook Islands, New Zealand	Pitcairn Islands, United Kingdom
Falkland Islands, United Kingdom	Puerto Rico, USA
Faeroe Islands, Denmark	Queen Maud Land, Norway
Federated States of Micronesia, USA	Réunion, France
French Guiana, France	Saint Helena, United Kingdom
French Polynesia, France	Saint Pierre and Miquelon, France
French Southern and Antarctic Territories, France	South Orkney Islands, United Kingdom
Gibraltar, United Kingdom	South Sandwich Islands, United Kingdom
Greenland, Denmark	South Georgia, United Kingdom
Guadeloupe, France	South Shetland Islands, United Kingdom
Guam, USA	Svalbard and Jan Mayen Islands, Norway
Guernsey, United Kingdom	Tokelau, New Zealand
Hawaiian Islands, USA	Tristan da Cunha Islands, United Kingdom
Heard and Macdonald Islands, Australia	Turks and Caicos Islands, United Kingdom
Isle of Man, United Kingdom	Virgin Islands of the United States, USA
	Wallis and Futuna, France

405: 177-189
- 1910** Ginsberg, J.R. and Macdonald, D.W.
(1990)
Foxes, wolves, jackals and dogs, an
action plan for the conservation of canids
IUCN, Gland
- 1911** Gittins, S.P. and Akonda, A.W. (1982)
What survives in Bangladesh?
Tigerpaper 9(4): 5-11
- 1912** Glade, A.A. (1988)
Red list of Chilean terrestrial vertebrates
Chilean Forest Service, Santiago
- 1913** Glander, K.E. (1983)
The effects of trapping and removal on
tamarin populations in Peru
IUCN/SSC Primate Specialist Group
Newsletter 3: 19-20

- 1915** Godfrey, L. and Vuillaume-Randriamanantena, M. (1986)
Hapalemur simus: endangered lemur once widespread
Primate Conservation 7: 92-96
- 1916** Gogoi, P.C. (1981)
A sanctuary for the Golden Langur
Tigerpaper 8(2): 7-9
- 1922** Goodman, S. M. (1993)
A reconnaissance of Ile Sainte Marie, Madagascar: the status of the forest, avifauna, lemurs and fruit bats.
Biological Conservation
Volume 65 Number 3 Pages 205-212.
- 1923** Goodwin, G.G. (1934)
Mammals collected by A. W. Anthony in Guatemala, 1924-1928.
Bulletin of the American Museum of Natural History 68(1): 1-60
- 1924** Gordon, G., Riney, T., Toop, J., Lawrie, B.C. and Godwin, M.D. (1985)
Observations on the Queensland Hairy-nosed Wombat *Lasiorhinus krefftii* (Owen)
Biological Conservation 33:165-195
- 1927** Gray, G.G. and Simpson, C.D. (1980)
Ammotragus lervia
Mammalian Species (American Society of Mammalogists) 144: 1-7
- 1928** Gray, J.E. (1861)
List of Mammalia, tortoises and crocodiles collected by M Mouhot in Camboja.
Proceedings of the Zoological Society of London 1861: 135-140
- 1929** Green, J. and Green, R. (1981)
The Otter (*Lutra lutra*) in western France.
Mammal Review
Volume 11 Pages 181-187.
- 1932** Green, M. J. B. (1982)
Status, distribution and conservation of the Snow Leopard in north India.
International Pedigree Book of Snow Leopards
Volume 3 Pages 6-10.
- 1933** Green, M. J. B. (1985)
Aspects of the ecology of the Himalayan Musk Deer.
Ph.D. Thesis, University of Cambridge, Cambridge
- 1935** Greig, J.C. (1983)
The South African Southern Right Whale census, 1983
African Wildlife 37(5): 184
- 1936** Gressitt, J.L. (1970)
Biogeography of Laos
Pacific Insects Monograph 24: 573-626
- 1937** Grettenberger, J. (1984)
W National Park in Niger - a case for urgent assistance
Oryx 18(4): 230-236
- 1938** Grettenberger, J.F. and Newby, J.E. (1986)
- The status and ecology of the Dama Gazelle in the Air and Ténéré National Nature Reserve, Niger
Biological Conservation 38: 207-216
- 1939** Grimwood, I.R. (1969)
Notes on the distribution and status of some Peruvian mammals
Special publication No. 21, American Committee for International Wildlife Protection and New York Zoological Society
- 1940** Groombridge, B. (1984)
A new locality for the Lion-tailed Macaque
Oryx 18(3): 144-147
- 1941** Groves, C.P. (1971)
Systematics of the genus *Nycticebus*
In: Anon, Proceedings of the Third International Congress of Primatology, vol. 1. S. Karger, Basel, pp. 44-53
- 1942** Groves, C.P. (1972)
Systematics and phylogeny of gibbons
In: Rumbaugh, D.M. (Ed.), Gibbons and Siamang, vol. 1, Karger, Basle, pp. 1-89
- 1943** Groves, C.P. (1974)
Horses, asses and zebras in the wild
David and Charles, London
- 1944** Groves, C.P. (1975)
The taxonomy of *Moschus* (Mammalia, Artiodactyla), with particular reference to the Indian Region
Journal of the Bombay Natural History Society 72(3): 662-676
- 1945** Groves, C.P. (1980)
Speciation in *Macaca*: the view from Sulawesi.
In: Lindburg, D.G. (Ed.), The Macaques: studies in ecology, behaviour and evolution. Van Nostrand and Reinhold Co., New York
- 1948** Grubb, P. (1973)
Distribution, divergence and speciation of the Drill and Mandrill
Folia Primatologica 20: 161-177

- 1949** Grubb, P. (1978)
A new antelope from Gabon
Zoological Journal of the Linnaean Society 62(4): 373-380
- 1950** Grubb, P. (1978)
The Potto (*Perodicticus potto*: Primates, Lorisidae) in Nigeria and adjacent territories
Bulletin de l'Institut Fondamental de l'Afrique Noire 40(4): 900-913
- 1952** Grubb, B.R. and Pereira, M.J. (1965)
Strandings of Finner Whale (*Balaenoptera physalus* Linn.) near Virar (Thana District) and at Bombay, Maharashtra State.
Journal of the Bombay Natural History Society 62: 550-551
- 1953** Grzimek, B. (1978)
Kameruns Urwald ist die Heimat der Gorillas
Das Tier 12: 16-19, 40-41
- 1954** Guggisberg, C.A.W. (1975)
Mammals of eastern Africa
Sapra Studio, Nairobi
- 1955** Guggisberg, C.A.W. (1975)
Wild cats of the world
David and Charles, London
- 1956** Gunaratna, R. (1986)
Whales off Sri Lanka
Sri Lanka Wildlife 2: 5-7
- 1957** Gunderson, V. (1977)
Some observations on the ecology of *Colobus badius temmincki*, Abuko Nature Reserve, the Gambia, West Africa
Primates 18(2): 305-314
- 1958** Gupta, A.K. and Kumar, A. (1994)
Feeding ecology and conservation of the Phayre's Leaf Monkey *Presbytis phayrei* in northeast India
Biological Conservation 69(3): 301-306
- 1959** Gupta, R.D. (1986)
Elephants in northern India
WWF Monthly Report January 1986: 1-6
- 1960** Habibi, K. (1977)
The mammals of Afghanistan, their distribution and status
Ministry of Agriculture, Kabul
- 1961** Haimoff, E.H., Yang Xiao-Jun, He Swing-Jing and Chen Nan (1987)
Conservation of gibbons in Yunnan Province, China
Oryx 21: 168-173
- 1962** Hall, E.R. (1981)
The mammals of North America
2 vols. (2nd edition). Wiley, New York
- 1963** Haltenorth, T. and Diller, H. (1977)
Mammals of Africa
(English translation), Collins, London
- 1964** Hamilton, P. H. (1981)
The Leopard *Panthera pardus* and the Cheetah *Acinonyx jubatus* in Kenya: ecology, status, conservation, management.
Report prepared for the Office of Endangered Species.
U.S. Fish and Wildlife Service. - Washington, D.C.
- 1966** Hammond, P.S. and Thompson, P.M. (1991)
Minimum estimate of the Bottle-nose Dolphins *Tursiops truncatus* in the Moray Firth, North East Scotland
Biological Conservation 56(1): 79-87
- 1967** Han, C. (1982)
[The status of the research on the Chinese River Dolphin (*Lipotes vexillifer*) in China]
Acta Theriologica Sinica 2(2): 245-252.
(In Chinese)
- 1969** Handley, C.O. (1976)
Mammals of the Smithsonian Venezuelan project
Brigham Young University Science Bulletin, Biology Series 20(5): 1-89
- 1970** Happold, D. C. D. (1973)
Large mammals of West Africa.
Longmans. -London
- 1971** Happold, D. C. D. (1973)
The Red-crowned Mangabey, *Cercocebus torquatus* in western Nigeria.
Folia Primatologica
Volume 20 Pages 423-428.
- 1972** Happold, D. C. D. (1987)
The mammals of Nigeria.
Clarendon Press. -Oxford ISBN 0-19-857565-3
- 1973** Happold, D. C. D. and Happold, M. (1989)
The mammals of Zambia.
Nyala
Volume 14 Number 1 Pages 5-20.
- 1974** Haque, M.N. and Siddiqi, N.A. (1988)
Status of Slow Loris (*Nycticebus coucang*) in Bangladesh with some information on its food preferences
Tigerpaper 15(2): 18-21
- 1975** Harcourt, A.H, Fossey, D. and Sabater-Pi, J. (1981)
Demography of *Gorilla gorilla*
Journal of Zoology, London 195: 215-233

- 5229** Erdelen, W. (1998)
Trade in lizards and snakes in
Indonesia – biogeography, ignorance
and sustainability.
In: Erdelen, W. (ed). Conservation,
trade and sustainable use of lizards
and snakes in Indonesia. *Mertensiella*
9: 65-83
- 5230** Tilbury, C. (1998)
Two new chameleons
(Sauria:Chamaeleonidae) from
isolated Afromontane forests in Sudan
and Ethiopia.
Bonner Zoologische Beiträge 47(3-4):
293-299.
- 5231** Ruiz-Carranza and Ramírez-Pinilla.
